#### 1. Course Description:

Technological advances, rapid globalization, economic shifts and cultural and environmental developments are causing profound changes in the marketplace. As the marketplace changes, so must the marketers who serve it. These new developments signify a brand new world of opportunities for forward-thinking marketers. The course on E-Business and Internet Marketing is designed for the next-generation marketers.

#### 2. Focus:

The course aims at introducing students to various concepts of E-Business and Internet Marketing and imparting practical experience as a part of the course curriculum. From the perspective of a marketer, students are encouraged to listen to conversations in different digital media, explore ways to analyze the conversations, relate to the audience and act accordingly to increase reputation of a brand. The objective of this course is to provide students with required knowledge, skills and expertise to help them build their career in E-Business and Internet Marketing.

#### 3. Scope and Objectives

The course covers various theories related to e-Business and Internet Marketing, and enhances the effectiveness of the learning through development of skills by participating in experiential activities. It aims to provide students the necessary knowledge and skills to start their career as a digital marketer in different organizations. Students undertaking this course should be able to appreciate the complexities involved in e-Business and be prepared to solve the issues faced by a digital marketer. Students are encouraged to earn certification during the course of the program, so that they can get their skills recognized by independent agencies.

#### Note:

- Highest level of intellectual integrity is expected of students while they work on term papers / projects in terms of giving proper acknowledgement and avoiding plagiarism. Students are also expected to submit their assignments on time failing which these may not be evaluated.
- This course is highly dynamic in its nature and content. As a result, one book may not suffice for achieving the learning objectives properly. However, the text book prescribed in this handout should provide the fundamental for most of the modules to be discussed in this course. The reference books, as specifically mentioned, should be consulted simultaneously along with the text book. A lot of additional material (hard copy or soft copy) or reference to those materials will be provided in the class.
- It shall be the responsibility of the individual student to be regular in maintaining the self-study schedule as given in the course handout, attend lectures and participate in the class-room activities / case studies as well as execute projects as announced in the class and / or in Nalanda.
- Mid Semester Test and Comprehensive Examination are according to the Evaluation Scheme given in the respective Course Handout, as decided by the Instruction Division.
- If the student is unable to appear for the Regular Test/Examination due to genuine exigencies, the student must refer to the procedure for applying for Make-up Test / Examination.
